Hudson Resources Inc.
Notes to the Financial Statements
For the Years ended June 30, 2023 and 2022
(Expressed in Canadian Dollars)

1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

Hudson Resources Inc. (“Hudson” or the “Company”) is a publicly listed company and its shares are listed on the TSX Venture Exchange under the symbol “HUD”. The Company was incorporated on March 7, 2000 under the Company Act of the Province of British Columbia. The Company’s head office and the registered records office are located at Suite 1500 - 701 West Georgia St, Vancouver, BC V7Y 1C6.

The Company is in the business of prospecting for, developing, and mining mineral resources located in Greenland and recently completed the sale of its wholly owned Nukittoq niobium - tantalum (“Nb-Ta”) project and its Sarfartoq rare earth element (“REE”) project. The Company is currently focused on the exploration of its wholly owned Gronne Bjerg exploration license for anorthosite. The Company is also involved in research and testwork of the uses of anorthosite. Hudson may also acquire, explore and evaluate other resource properties, and either joint venture or develop these properties further or dispose of them when the evaluation is completed. The Company has a minority 31.1% interest in Lumina Sustainable Materials A/S (“Lumina”), previously Hudson Greenland A/S which owns the White Mountain anorthosite mine located on its Naajat anorthosite exploitation license.

The Company has not generated revenue from operations and has experienced recurring operating losses. For the current three months ended June 30, 2023, the Company recorded a net income of \$4,581,769 from the completion of the sale of the Sarfartoq license to Neo Performance materials Inc. (“Neo”), and has an accumulated deficit of \$88,254,131.

As at June 30, 2023, the Company had working capital of \$3,500,995. Working capital is defined as current assets less current liabilities and provides a measure of the Company’s ability to settle liabilities that are due within one year with assets that are also expected to be converted into cash within one year. The Company believes it has the necessary cash to fund its operations over the next 12 months. The Company will, however, periodically need to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

These financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Realizable values may be substantially different from carrying values as shown.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

Statement of compliance and basis of preparation

These unaudited condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). These condensed interim financial statements comply with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”). These condensed interim financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published at the time of preparation and that are effective on April 1, 2023.

Basis of consolidation and equity accounting

Subsidiaries are all entities (including structured entities) over which the Company has control. The Company controls an entity where the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. Subsidiaries are deconsolidated from the date that control ceases. All intercompany balances, transactions, income and expenses, and profits or losses are eliminated on consolidation.

Associates are all entities over which the Company has significant influence but not control or joint control. This is generally the case where the Company holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting after initially being recognized at cost.

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Company’s share of the post-acquisition profits or losses of the investee in profit or loss, and the Company’s share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognized as a reduction in the carrying amount of the investment. Where the Company’s share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Company does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealized gains on transactions between the Company and its associates and joint ventures are eliminated to the extent of the Company’s interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The carrying amount of equity-accounted investments is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs of disposal and value in use.

The Transaction as announced by the Company on September 23, 2020 (see note 6) resulted in a loss of de-facto control of Lumina (the “Subsidiary”) as the facts and circumstances indicate. Accordingly, the Subsidiary has been deconsolidated as at the Transaction date when control ceased, and the Company commenced application of equity method of accounting for Lumina and recognized its investment in associate at its fair value.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

Basis of presentation

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all of the information and disclosures required in full annual financial statements and should be read in conjunction with the Company's annual financial statements as at March 31, 2022 which have been prepared in accordance with IFRS. These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments carried at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These condensed consolidated interim financial statements follow the same accounting policies and methods of application as the annual audited financial statements for the year ended March 31, 2023.

Functional and presentation currency

These condensed consolidated interim financial statements are presented in Canadian dollars ("CAD") which is the functional currency of the Company.

Disposition	(8,131)	-	(8,131)
Balance as at June 30, 2023	\$ -	\$ 6,380	\$ 6,380

The Company previously held the Sarfartoq EL (2020/32), an exploration stage property in Greenland for which was reacquired by the Company, under a new EL at the end of the fiscal 2020 year.

On August 22, 2022, the Company announced a binding agreement with Neo for the sale of its Sarfartoq Exploration License (“Agreement”). This transaction was completed in April 2023. The key terms of the Agreement provides for the following:

- Initial cash payment of \$313,006 (US\$250,000 received in August 2022) upon signing of the Agreement for which the Company recorded as a deposit received on sale of mineral properties.
- Upon receipt of approval from the Greenland government, the Company transferred the License to Neo or a special purpose entity (“SPE”) (the “Closing”).
- The Company received an additional US\$3,250,000 upon closing of the transaction. An equivalent amount of \$4,374,500 in Canadian funds was received during the three months ended June 30, 2023.
- If within five years from the date of closing of the transaction (1) the SPE transfers the License, or there is a change in control of the SPE pursuant to an acquisition or merger, the Company will receive 5% of the total consideration received by the SPE in connection with such transfer, or (2) the SPE conducts an initial public offering on a stock exchange (“IPO”), then Hudson will receive 5% of the fully diluted equity interests in the SPE immediately prior to the IPO.

5. INVESTMENT IN ASSOCIATE

Debt restructuring in Lumina Sustainable Minerals A/S (“Lumina”, previously Hudson Greenland A/S)

Upon completion of the debt restructuring transaction (the “Transaction”) with its existing lenders, Cordiant Capital Inc. and its affiliates, and Romeo Fund – Flexi and its affiliates (together, the “Lenders”) on September 23, 2020, Management assessed its involvement in Lumina in accordance with IFRS 10’s control definition and guidance and concluded that it no longer has outright control but has retained significant influence. In making this judgement, management considered the Company’s relative size of voting rights and the Lenders’ decision-making ability on the Board of Directors. Accordingly, Lumina was deconsolidated as at the Transaction date when control ceased, and the Company commenced application of the equity method of accounting for Lumina and recognized its investment in associate at its fair value as of the date of the Transaction.

The Company’s appointed member resigned from the Lumina Board of Directors on December 21, 2022, and no new Hudson representative has since been appointed. Management has reassessed the situation where, due to restrictive decision-making abilities and limited access to records, determined that the Company no longer retains any significant influence over Lumina despite its 31.1% voting rights. Accordingly, the Company terminated its application of the equity method of accounting for its investment in Lumina, and has classified this investment in Lumina as FVTPL and recognized a fair value of \$nil.

The Company’s share of cumulative losses associated with its investment in Lumina was reduced to a carrying value of \$nil during the three months ended June 30, 2022.

Equity Basis of Accounting

	\$ 422	\$ 6,380	\$ 6,802

13. CAPITAL MANAGEMENT

The Company manages and adjusts its capital structure based on the funds available to the Company in order to support future development activities. The Board of Directors does not establish quantitative returns on capital criteria for management, but rather relies on the expertise of the Company's management to sustain the future development of the business.

In order to further exploration and development activities, the Company will spend its existing working capital and raise additional funds, if required. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the three months ended June 30, 2023.

The Company has no externally imposed capital requirements.

14. FINANCIAL INSTRUMENTS

a) Fair value

Financial assets and liabilities that are recognized on the statement of financial position at fair value follow in a hierarchy that is based on the significance of the inputs used in making the measurements. The levels in the hierarchy are:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

	June 30, 2023		March 31, 2023	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets:				
<i>Amortized cost</i>				
Cash	\$ 3,578,077	\$ 3,578,077	\$ 100,205	\$ 100,205
Sales tax and other receivables	7,681	7,681	10,628	10,628
	\$ 3,585,758	\$ 3,585,758	\$ 110,833	\$ 110,833
Financial liabilities:				
<i>Amortized cost</i>				
Accounts payable and accrued liabilities	\$ 99,656	\$ 99,656	\$ 675,294	\$ 675,294
Deposit received on sale of asset	-	-	313,006	313,006
Note payable	-	-	222,725	222,725
	\$ 99,656	\$ 99,656	\$ 1,211,025	\$ 1,211,025

The carrying values of the Company's financial assets and liabilities are considered to be a reasonable approximation of fair value due to the short-term nature of these instruments. There are no financial instruments recorded at fair value through profit or loss (FVTPL) on the statements of financial position.

b) Financial risk management

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash and sales tax and other receivables are exposed to credit risk. The Company reduces its credit risk on cash by placing these instruments with institutions of high credit worthiness. As at June 30, 2023, the Company's maximum exposure to credit risk is the carrying value of its financial assets.

14. FINANCIAL INSTRUMENTS (CONTINUED)

b) Financial risk management (continued)

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

As at June 30, 2023, the Company had cash of \$3,578,077 in order to meet short-term business requirements and accounts payable and accrued liabilities of \$99,656. All accounts payable and accrued liabilities are current liabilities.

With the completion of the sale of the Sarfartoq license to Neo in April, 2023, the Company has received all remaining sales proceeds (US\$3,250,000) associated with this transaction (note 4). Liquidity risk has since reduced and the Company believes it has sufficient cash to fund its operations over the next 12 months.

Market Risk

The significant market risks to which the Company is exposed are interest rate risk and currency risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's cash are held mainly in high yield saving accounts and term deposits and therefore there is currently minimal interest rate risk. Because of the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as at June 30, 2023.

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices other than those arising from interest rate risk, financial market risk, or currency risk. The Company is not exposed to significant other price risk.

Currency risk

The Company is exposed to currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. The Company has not entered into any foreign currency contracts to mitigate this risk.

The Company's cash, sales tax and other receivables, accounts payable and accrued liabilities, and notes payable are all denominated in CAD.
